

The Next Generation of Multi-fiber Connector Excellence

# MTP® PRO

The MTP® PRO connector is designed for optimal flexibility in the field while leveraging all the proven features and technology of US Conec's MTP® connectors.

#### Integrated Push-Pull Sleeve

*Robust push-pull insertion and extraction housing design for ease of use and access*

#### Field Polarity Change

*Simple one-step color coded polarity change feature without removing connector housing*

#### Environmentally Friendly

*RoHS and REACH compliant without exemptions*

#### Field Pin Change

*Field friendly configuration with safe handling of pins and easy color identification while maintaining product integrity*

#### Debris Reduction System

*Latch lock geometry and material optimized to reduce debris generation*

Precision Engineering. Optimal Flexibility.
